OBJECTIVE

Motivated and detail-oriented Information Science undergraduate with a strong foundation in programming, web development, and problem-solving. Seeking an Associate Software Engineer role where I can apply my technical skills, contribute to impactful projects, and continuously grow as a software developer.

EDUCATION

2027

- **MOODLAKATTE INSTITUTE OF TECHNOLOGY, KUNDAPUR**
Bachelor of Engineering
7.5

SKILLS

- 1. Backend Development 2. IOS App Development

PROJECTS

- **Hospital Management System**
Developed a secure backend system for managing patients, doctors, appointments, and medical records using RESTful APIs. Implemented JWT-based authentication, role-based access control, and database integration to ensure efficient and secure healthcare data management.
- **Banking API**
Developed a secure backend API for managing user accounts, fund transfers, and transaction history using RESTful architecture. Implemented JWT authentication, role-based access control, input validation, and encrypted password storage to ensure secure and reliable financial operations.
- **E-Commerce Backend**
Developed a scalable backend for an e-commerce platform with secure user authentication, product management, shopping cart, and order processing using RESTful APIs. Integrated database operations, role-based access control, and payment gateway support to provide a secure and efficient shopping experience.(ONGOING)
